

React.js + Next.js Interview Questions

tnpLab private limited

BASIC REACT QUESTIONS

1. What is React? Why is it used?
 2. What are components in React? Types of components?
 3. What is JSX?
 4. What is the Virtual DOM?
 5. Difference between Virtual DOM and Real DOM
 6. What is props in React?
 7. What is state in React?
 8. Difference between state and props
 9. What is useState hook?
 10. What is useEffect hook?
 11. What is the purpose of key in React lists?
 12. What is event handling in React?
-

INTERMEDIATE REACT QUESTIONS

13. What is lifting state up?
 14. What is prop drilling? How to avoid it?
 15. What is Context API?
 16. What is Redux? Why use it over Context?
 17. What are controlled vs uncontrolled components?
 18. What is React Router?
 19. Difference between useMemo and useCallback
 20. What is lazy loading in React?
 21. What is code splitting?
 22. What are Higher Order Components (HOC)?
 23. What are custom hooks?
 24. What is reconciliation in React?
 25. What are fragments in React?
-

ADVANCED REACT QUESTIONS

26. How does React rendering work internally?
27. What is batching in React?
28. What is concurrent rendering?

React.js + Next.js Interview Questions

tnpLab private limited

29. What is React Fiber?
 30. How do you optimize performance in React apps?
 31. What are common causes of unnecessary re-renders?
 32. What is memoization in React?
 33. Difference between React.memo, useMemo, useCallback
 34. What are error boundaries?
 35. How do you handle global state in large applications?
-

NEXT.JS QUESTIONS

BAIC NEXT.JS

36. What is Next.js? Why is it used over React?
 37. What is SSR (Server Side Rendering)?
 38. What is SSG (Static Site Generation)?
 39. What is CSR (Client Side Rendering)?
 40. What is file-based routing in Next.js?
-

ADVANCED NEXT.JS

41. What is ISR (Incremental Static Regeneration)?
 42. What are API routes in Next.js?
 43. What is middleware in Next.js?
 44. What is the difference between getServerSideProps and getStaticProps?
 45. What is App Router vs Pages Router?
-

SCENARIO-BASED QUESTIONS

1. Performance Issue

Your React app becomes slow when rendering a large list.
How will you optimize it?

2. State Management

You are passing props through 5 nested components.
How will you solve prop drilling?

React.js + Next.js Interview Questions

tnpLab private limited

3. Authentication (Next.js)

You need protected routes for logged-in users.

How will you implement authentication?

4. SEO Issue

Your React app is not SEO-friendly.

What will you do?

5. Re-render Problem

Component re-renders unnecessarily.

How will you debug and fix it?

6. API Optimization

Multiple API calls slow down page load.

How will you optimize?

7. Real-time App

Building collaborative editor (like Google Docs).

How will you manage real-time updates in React?

8. Next.js Rendering Strategy

You are building an e-commerce site.

Which pages will use SSR, SSG, or ISR?

9. Form Handling

Large form with validations and performance issues.

How will you handle it?

10. Micro-frontend Scenario

Multiple teams working on the same frontend.

How will you structure the React app?
